

ONS ONCC Chemo Renewal Exam Questions With Correct Answers 2025

Neoadjuvant therapy does not increase survival when compared to adjuvant therapy. It only changes the timing of treatment and can change surgical options if the tumor is shrunk enough. If this occurs, the patient may only require a lumpectomy plus radiation therapy instead of needing a mastectomy - correct answer
Main benefit of neoadjuvant chemotherapy (breast cancer patient)

A comprehensive geriatric assessment (CGA) is a multidisciplinary evaluation to assess life expectancy and risk of morbidity and mortality in the older patient. This assessment tool would evaluate and include the following areas: functional status, socioeconomic issues, psychosocial distress, comorbidities, cognitive function, nutritional status, polypharmacy, and a medication review (NCCN Older Adult Oncology Guidelines, version 1.2015). - correct answer
Due to Mrs. Turner's age and comorbidities, her oncologist performs a comprehensive geriatric assessment. You know that this assessment covers all but which of the following:

65 - correct answer
The NCCN Older Adult Oncology Guidelines (version 1.2015) provides information on what is included in a comprehensive geriatric assessment. Currently, more than 60% of cancers in the United States occur in people age _____ and older and as the oncology world ages, nearly half (46%) of cancer survivors are 70 years of age or older

Two of the agents (docetaxel and carboplatin) that Mrs. Turner will receive are categorized as irritants. Docetaxel can cause a significant reaction if it extravasates. It can lead to edema, erythema, occasional pain and blister formation (ONS Chemo/Bio guidelines, 2014). That is the most likely reason that Mrs. Turner was given a port for her treatments. Some patients will receive their treatments through a peripheral IV without incident. Just because they are intravenous agents does not mean that a port is required and needing a port has nothing to do with her being older in age. Since none of these agents are vesicants, they likely could have been given safely via peripheral route but having a port placed is OK as well. - correct answer
What is your best explanation for why Mrs. Turner was given a port to receive her chemotherapy?

Irritants - correct answer _____ can cause inflammation, pain, and burning but rarely cause tissue necrosis comparable to a vesicant (unless a large amount or a very high concentration of the irritant is extravasated).
