Written for a broad audience and accompanied by humorous cartoons this book will appeal to anyone looking for scientific and historical answers about mRNA vaccines Readers will discover not only the technical and scientific knowledge of how these vaccines work but also the economic levers that were necessary to create this technology This book has been written in collaboration with Dr Steve Pascolo former director of CureVac and the RNA messenger expert Professor Chantal Pichon It also features a preface by Dr Pierre Meulien former director of the European Union public private partnership Innovative Medicines Initiative IMI
