The Responsible Investor Handbook Thomas Croft, Annie Malhotra, 2017-09-08
For decades workers' capital stewards have invested wisely to provide a secure retirement for millions of people around the world. This money, our money, represents an enormous share of economic and capital market wealth. It has seeded and grown innumerable innovative industries that have had far-reaching impacts. However, the 2008 financial crisis has seriously threatened these trusted assets and drained away prosperity. In response, a growing number of investors are moving towards responsible investment policies and strategies addressing the rising expectations of consumers and benefiting from the financial advantages such strategies bring. Everyday citizens now want to see their investments not only do well but do good. But what constitutes responsible investment and how can it be undertaken in practice? What is the impact of responsible investment strategies on investment performance? How can trustees, managers and advisors implement these strategies in line with their fiduciary responsibilities? How can plan trustees and staff members convince all stakeholders of the need to invest in resilient growth? The Responsible Investor Handbook, commissioned by the AFL CIO and global progressive investors, is a lay-friendly how-to manual sharing the best in responsible investment practice with capital stewards and other policy leaders who want to do the right thing with our common wealth. This invaluable toolkit enables readers to understand the pioneering role of workers' capital in building infrastructure and vital services. Devise a responsible investment strategy. Select and monitor service providers. Bring on board stakeholders with conflicting interests. Avoid short-termism. The Responsible Investor Handbook is the first book devoted to aligning the long-term investment priorities of working people with capital stewards and the financial complex that manages their assets. It is an essential read for trustees and capital stewards seeking the positive outcomes of a responsible investment strategy, pension and institutional investors looking to realign their strategies with the interests of workers and citizens, and any professional seeking a better understanding of the importance of responsible investment and its impact on capital markets.
