Do Students Have Too Much Homework At Issue:

Are Students Given Too Much Homework? Katie Kawa, 2018-12-15 Students have always complained about the amount of homework they've been given but informed debates about homework and its impact on students' lives and mental health have become more common in recent years. Readers are encouraged to understand both sides of the debate and to form their own opinion as they explore informative main text and fact boxes featuring relevant statistics. A detailed graphic organizer and full color photographs work with the unbiased text to create a relatable reading experience that challenges readers to strengthen their critical thinking skills as they study different ways to view a topic that directly affects them.

Do Students Have Too Much Homework? Judeen Bartos, 2012 These books provide a range of opinions on a social issue; each volume focuses on a specific issue and offers a variety of perspectives, e.g. eyewitness accounts, governmental views, scientific analysis, newspaper accounts, to illuminate the issue. This new addition to the At Issue series examines a variety of issues related to student homework. The title explores the impact of excessive homework on families, the relationship between academic pressure and student workload, and the impact of life less. Greenhaven Press's At Issue series provides a wide range of opinions on individual social issues. Enhancing critical thinking skills: each At Issue volume is an excellent research tool to help readers understand current social issues and prepare reports.

Using Grading to Support Student Learning Matt Townsley, 2022-06-22 Using Grading to Support Student Learning offers an accessible foundation for using grading practices to support student learning through classroom assessment. Purposeful, defensible grading and reporting mechanisms cannot be neglected in today's reform climate and new approaches are needed to understand and refine the roles of homework, formative and summative assessments, and standards across grade levels. Evidence-based and full of illustrative examples, this book bridges research and theory on grading and assessment with classroom practices for pre-service and in-service teachers and fresh perspectives for educational researchers studying grading practices.

The 2003 Brown Center Annual Report on American Education Tom Loveless, 2003 The 2003 Brown Center Report on American Education is the fourth edition of the annual publication. It will be released October 22, 2003. The first section uses NAEP test data and test scores from the states to evaluate student achievement. The second section debunks the popular notion that students are being overwhelmed with homework. The third section offers a follow-up of last year's study of charter schools with special attention given to charter schools that were once regular public schools and charter schools run by educational management organizations (EMOs).
