**Luke** Arthur Just Jr., Thomas C. Oden, 2003-02-19 For the church fathers the Gospels did not serve as resources for individual analysis and academic study They were read and heard and interpreted within the worshiping community Among such sermons on Luke that have survived this ACCS volume includes selections from Origen and Cyril of Alexandria as well as church fathers who addressed exegetical issues in theological treatises pastoral letters and catechetical lectures

**Christian Perspectives on Sociology** Stephen Grunlan, Milton Reimer, 2001-04-02 [The Making of the New Testament Documents](#) E. Earle Ellis, 2021-10-25 The Making of the New Testament Documents investigates literary tradition and their implications for the authorship origin and dating of the New Testament Gospels and letters Building upon earlier research it identifies and compares preformed pieces that in the letters call into question the traditional view that the letters were the sole product of an individual whose authorship could be vetted by internal criteria of vocabulary style and theological expression The numerous and diverse epistolary traditions many non authorial argue for a kind of corporate authorship that until now has been unappreciated and apparently unknown to critical scholarship A comparison of the traditions and of the common opposition they sometimes have in view supports a synchronic relationship of the various New Testament documents all of which with the exception of John's Gospel and letters reflect the pre AD 70 period It thus challenges the tradition of F C Baur still widely followed that apart from a few Pauline letters dates New Testament writings from the last decades of the first century to the first half of the second The author contends that the New Testament is the product of four contemporaneous and cooperating apostolic missions each of which produced a Gospel and a number of letters and each of which faced the same judaizing gnosticizing countermission These four allied missions shared both Gospel and epistolary traditions even as they pursued their discrete tasks in the service of the church The arguments of this book if persuasive will require a reassessment of the history of early Christianity This publication has also been published in paperback please click here for details

**Comparing Religions** Thomas Athanasius Idinopulos, Brian C. Wilson, James Constantine Hanges, 2018-08-14 Given the fact that today's university students are far more culturally sophisticated than ever before Comparing Religions Possibilities and Perils brings together a distinguished group of professors of religion with years of teaching experience to address the central question of how comparison of religions should be pursued in today's classroom Covering topics such as recent theoretical approaches to comparison case studies of comparing religions in the classroom and the impact of postcolonialism and postmodernism on the modernist assumptions of comparativism the volume seeks to problematize and interrogate the field especially as it relates to emerging models of pedagogy at the university level Comparing Religions will be of especial interest to those who teach in religious studies departments or who teach courses on religion in departments of anthropology sociology and history [The Divine Tragedy](#) Sara Van Alen Murray, 1943

the author a developmental psychologist explores slavery from a slaves viewpoint with special emphasis on probable psychological reactions to the initial loss of freedom adjustment to a life totally controlled by others with the minimum amount of pain and the psychological reformulation necessary to survive somewhat intact Its fiction but the reader cannot help but identify with the plight of the novels hero as he copes with enslavement in three very different historical slave societies For most Americans slavery was a racial exploitation unique to the South and ending with the Civil War For the rest of the world slavery was a fact of life from pre recorded history had nothing to do with the color of ones skin involved huge segments of the population and extended itself well into the twentieth century Indeed slavery still exists in certain areas of the world e g Mauritania the Sudan etc albeit in slightly different forms e g contract labor coerced prostitution prison labor etc In an effort to challenge the way we see the institution of slavery and especially how we judge those enslaved The Itinerant Slave was written as a psychological historical adventure time travel novel which goes back in time rather than forward The book describes the adventures of a young handsome bright and articulate high school teacher from Chicago who time travels into three distinctly different historical slave societies Ancient Rome the American Antebellum South and Arabia in the 1940s In each society he falls into the hands of slavers has to deal with the expectations imposed on slaves inherent in those particular societies and eventually finds The Centurion's Slave Thomas Brynn,1992
