Development In Modern Africa Martin S. Shanguhya, Toyin Falola, 2019-10-08 Development in Modern Africa Past and Present Perspectives contributes to our understanding of Africa s experiences with the development process It does so by adopting a historical and contemporary analysis of this experience The book is set within the context of critiques on development in Africa that have yielded two general categories of analysis skepticism and pessimism While not overlooking the shortcomings of development the themes in the book express an optimistic view of Africa s development experiences highlighting elements that can be tapped into to enhance the condition of African populations and their states By using case studies from precolonial colonial and postcolonial Africa contributors to the volume demonstrate that human instincts to improve material social and spiritual worlds are universal They are not limited to the Western world which the term and process of development are typically associated with Before and after contact with the West Africans have actively created institutions and values that they have actively employed to improve individual and community lives This innovative spirit has motivated Africans to integrate or experiment with new values and structures challenges and solutions to human welfare that resulted from contact with colonialism and the postcolonial global community The book will be of interest to academics in the fields of history African studies and regional studies **The Nature of Woman** Mary Anne Warren, 1980 This book attempts to bring together in one volume an overview of the considerable literature particularly from philosophy and the social sciences on the nature of woman It provides introductions to the arguments and conclusions about this topic of a wide range of Western thinkers from Plato Aristotle and the authors of Genesis to the feminists and antifeminists of the 1970s Each has presented original or influential theories on some or all of the following issues 1 moral psychological theological and other intrinsic differences between women and men apart from the obvious biological ones 2 causal explanations of sex dominance where it occurs 3 the moral implications of sex roles and the moral aspects of other issues of special relevance to women e g abortion and 4 possible means of engineering social change with respect to sex roles *Bulletin from Virginia Kirkus' Service* Kirkus Service, 1964 Mirror for the Muslim Prince Mehrzad Boroujerdi, 2013-05-01 In this volume a group of

distinguished scholars reinterpret concepts and canons of Islamic thought in Arab Persian South Asian and Turkish traditions They demonstrate that there is no unitary Islamic position on important issues of statecraft and governance They recognize that Islam is a discursive site marked by silences agreements and animated controversies Rigorous debates and profound disagreements among Muslim theologians philosophers and literati have taken place over such questions as What is an Islamic state Was the state ever viewed as an independent political institution in the Islamic tradition of political thought Is it possible that a religion that places an inordinate emphasis upon the importance of good deeds does not indeed have a vigorous notion of public interest or a systematic theory of government Does Islam provide an edifice a common idiom and an ideological mooring for premodern and modern Muslim rulers alike The nuanced reading of the Islamic traditions provided in this book will help future generations of Muslims contemplate a more humane style of statecraft
