Law and the "Sharing Economy" Derek McKee, Finn Makela, Teresa Scassa, 2018-11-27 La controverse entoure les plateformes d conomie de partage partiellement en raison de leur impact conomique Certains secteurs subissent des contrecoups de mani re plus aig e les

chauffeurs d'Uber font concurrence aux chauffeurs de taxi ou les hôtes Airbnb rivalisent avec les hôtels. Par ailleurs, Uber exacerberait l'emploi précaire et mal rémunéré tandis qu'Airbnb amplifierait la spéculation immobilière et entraînerait une hausse du coût de location. On a tenté de réglementer ce type de plateformes mais la technologie est telle qu'elle permet aux entreprises d'aisément contourner la réglementation conventionnelle si bien que les accusations de concurrence déloyale fusent de toutes parts provoquant une remise en question du cadre réglementaire. En effet, de telles plateformes viennent brouiller les cartes confondant les distinctions convenues entre personnel et commercial, infrastructure et contenu, autonomie contractuelle et contrôle hiérarchique. Cette ambiguïté peut avoir d'importantes répercussions sur le bon fonctionnement de l'appareil réglementaire qui encadre les principes organisateurs du travail, de la concurrence, de l'impôt, de l'assurance, de l'information et de l'interdiction de la discrimination sans parler de la réglementation sectorielle spécialisée. Cinq thématiques sont abordées dans cet ouvrage : les technologies de la réglementation, la réglementation de la technologie, les lieux de la réglementation, du local au mondial, la réglementation des marchés et la réglementation du travail. Les chapitres se conjuguent pour offrir une réflexion d'une gamme d'experts sur la jurisprudence traditionnelle que sur les approches théoriques qui informent et façonnent la réglementation de l'économie du partage. Publié en anglais.

Corporate Social Responsibility in Times of Geopolitical Uncertainty Mariia Domina, 2024-08-30 The book discusses the evolving nature of corporate social responsibility in times of geopolitical uncertainty. This uncertainty is prompted by geopolitical risks faced by modern companies such as the COVID-19 pandemic and climate change as well as social and economic consequences of wars in Ukraine and elsewhere. Such geopolitical risks undeniably raise questions as to what the new ethical norm of corporate conduct should be. This book strives to evaluate the effectiveness of European legal approach regarding the conduct of commercial companies in the times of geopolitical uncertainty. Amongst jurisdictions considered in the book a particular attention is paid to France. It is one of the leading European countries when it comes to the regulation of corporate conduct vis-à-vis the interests of a large group of stakeholders. As a case study to assess the effectiveness of European legal approach the book looks at the geopolitical risks provoked by the war in Ukraine. This unique and timely study fills a void in this important area of research by exploring key arguments related to what corporate conduct is or should be considered as ethical in times of geopolitical uncertainty.

From Meaning of Working to Meaningful Lives: The Challenges of Expanding Decent Work Annamaria Di Fabio, David L. Blustein, 2016-09-21 This Research Topic explores issues that are central to the continued relevance of organizational and vocational psychology and equally central to the well-being of individuals and communities. The cohering theme of this publication revolves around the question of how people can establish meaningful lives and meaningful work experiences in light of the many challenges that are reducing access to decent work. Another essential contextual factor that is explored in this volume is the Decent Work Agenda International Labour Organization 2008 which represents an initiative by the International Labour Organization. In this book we hope to enrich the

Decent Work Agenda by infusing the knowledge and perspectives of psychology into contemporary discourses about work and well being Another inspiration for this project emerged from the UNESCO Chair in Lifelong guidance and counseling recently established in Poland in 2013 under the leadership of Jean Guichard which has focused on advancing research and policy advocacy about decent work This new era calls for an innovative perspective in constructing decent work and decent lives the passage from the paradigm of motivation to the paradigm of meaning where the sustainability of the decent life project is anchored to a meaningful construction During this period when work is changing so rapidly leaving people yearning for a sense of connection and meaning it s fundamental to create a framework for an explicitly psychological analysis of decent work
