Claiming Disability Claiming Disability:

Claiming Disability Discrimination Laura William, Susan Corby, Birgit Pauksztat, 2025-01-27 Research shows that when accessing and retaining work and when seeking promotion disabled people often face discrimination and disadvantage that can be unlawful Obtaining a remedy is no easy matter as although access to justice and a fair public hearing are key human rights disabled claimants often face barriers in Employment Tribunals Using a unique and bespoke dataset this book examines the factors that determine the outcome of these cases in British Employment Tribunals These factors include the impact of case and claimant characteristics the effect of public sector employment what happens to disability discrimination claims when they contain claims for other types of discrimination such as race discrimination and the distinctiveness of a claim for a failure to make a reasonable adjustment The book concludes by proposing reforms to the legal system government policy and wider social change along with suggestions for future research It will be of great interest to scholars and students of disability discrimination as well as the broader fields of employment relations EDI HRM and labour studies

Claiming Disability Simi Linton, 1998-01-01 From public transportation and education to adequate access to buildings the social impact of disability has been felt everywhere since the passage of the Americans with Disabilities Act in 1990 And a remarkable groundswell of activism and critical literature has followed in this wake Claiming Disability is the first comprehensive examination of Disability Studies as a field of inquiry Disability Studies is not simply about the variations that exist in human behavior appearance functioning sensory acuity and cognitive processing but the meaning we make of those variations With vivid imagery and numerous examples Simi Linton explores the divisions society creates the normal versus the pathological the competent citizen versus the ward of the state Map and manifesto Claiming Disability overturns medicalized versions of disability and establishes disabled people and their allies as the rightful claimants to this territory
