 For proper circuit construction, use of insulation labels, bending gauges, etc., is required. The wiring, cables and binding to the parts are specially planned using stamps to keep away from heated and high voltage parts. Ensure that they are placed back in their original positions after repair or inspection.
 If external damage is caused due to negligence during repair, the legal responsibility shall be with the repairing company.
- Check for safety after repair.
 Check that the wires, parts and wires are put back securely in their original position after repair. Check for safety before there is no possibility of secondary problems around the repaired parts.
