5. Fine liners

New Skills to be Developed

- Drawing from observation
- Observation of overlapping objects in a drawing
- Practice of continuous line drawing

Dra Observational Guide

LL Leslie

Dra Observational Guide:

The Literacy Coach's Companion, PreK-3 Maryann Mraz, Robert Algozzine, Brian Kissel, 2009 Literacy coaches have become an increasingly important part of school literacy teams. As a result, there is a greater need for understanding the issues related to this growing position. This book addresses those issues and highlights the expanding role of literacy coaches in early and elementary literacy programs. Chapters feature user-friendly guidelines and evidence-based strategies for sustained professional development protocols for classroom observations and teacher conferences and vignettes offering solutions to common coaching challenges. Coaches will discover how to define an effective proactive role in promoting literacy initiatives, strengthen content knowledge and coaching skills to support teachers' efforts and students' literacy development, collaborate with teachers and school leaders to establish productive learning communities, and communicate their changing roles to administrators. Publisher's website

Assessing and Addressing Literacy Needs Barbara Combs, 2011-04-07 Assessing and Addressing Literacy Needs: Cases and Instructional Strategies is designed to help preservice and inservice teachers understand the problems that children encounter when learning to read and to provide key instructional strategies related to best practices in literacy instruction. The text promotes reflection and analysis that will provoke thoughtful responses and discussions to help teachers use assessments to identify problems and employ appropriate strategies to help their students become better readers. El-Hi Textbooks & Serials in Print, 2005, 2005

Teaching Elementary Social Studies James A. DuPlass, 2008 Written for the elementary social studies methods course, this interactive program combines features of a textbook and a workbook with thorough integration between the print text and a dynamic web site. Increasingly, majors in elementary education, if not the population at large, are more attuned to reading interactive material with relatively brief narrative bulleted items, text boxes, and targeted messages like web pages rather than traditional denser text. To accommodate these preferences, the layout of the print text features a larger than usual font, an 8 x 11 trim size, and spiral binding, and the content includes an abundance of bulleted lists, shaded text boxes, and contemporary graphics. The program's interactive approach and flexibility allow the professor to model the kinds of teaching principles and practices that students will want to use in their own elementary school classrooms. These principles and practices are integrated throughout the text and include a focus on active learning strategies, application of constructivist principles, focus on Big Ideas and thinking skills, use of the Internet, and modeling of Best Practices and Performance-based assessments based on INTASC and NCATE standards. Thus, the book will serve as a springboard for classroom activities, web site explorations, and/or instructor-led

Dra Observational Guide Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**Dra Observational Guide**," compiled by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve to the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
