into three parts devoted to Brentano's philosophy of mind, his metaphysics, and his moral philosophy. The book's fundamental ambition is to show how Brentano combines the clarity and precision of the analytic philosopher with the sweeping vision of the continental philosopher. Brentano pays careful attention to important distinctions, conscientiously defines key notions, presents precise arguments for his claims, judiciously considers potential objections, and in general proceeds very methodically. Yet he does so not as an end in itself but as a means only. His end is the crafting of a grand philosophical system in the classical sense, attempting to produce nothing less than a unified theory of the true, the good, and the beautiful.
