The Transformation of the Gulf David Held, Kristian Ulrichsen, 2013-03-01 This book examines the political economic and social transformation of the six member states of the Gulf Cooperation Council GCC and the ways in which these states are both shaping and being reshaped by the processes of globalisation Adopting a multidisciplinary approach the volume combines thematic chapters focusing on issues such as globalisation nationalism and identity political thinking and economic diversification and redistributive policymaking with empirical chapters studying specific aspects of reform and change the emergence of governing markets the rise of Sovereign Wealth Funds Islamic Finance the relationship between energy and sustainability trends in foreign aid donorship strategic and foreign policy formulation Contributions from experts in the field provide cutting edge snapshots of a region in flux and collectively offer a roadmap of its repositioning in the global order examining the interaction between global processes and internal dynamics of change and resistance that inject new dimensions into debates over the loci of local and global transformations and the manner in which each plays off the other Situating the Gulf States firmly within their global twenty first century context this book will hold particular appeal to theorists of globalisation as well as to

scholars of comparative politics international political economy and area studies

The Cambridge History of the Polar Regions Adrian Howkins, Peder Roberts, 2023-05-11 The Cambridge History of the Polar Regions is a landmark collection drawing together the history of the Arctic and Antarctica from the earliest times to the present. Structured as a series of thematic chapters, an international team of scholars offer a range of perspectives from environmental history, the history of science and exploration, cultural history, and the more traditional approaches of political, social, economic, and imperial history. The volume considers the centrality of Indigenous experience and the urgent need to build action in the present on a thorough understanding of the past. Using historical research based on methods ranging from archives and print culture to archaeology and oral histories, these essays provide fresh analyses of the discovery of Antarctica, the disappearance of Sir John Franklin, the fate of the Norse colony in Greenland, the origins of the Antarctic Treaty, and much more. This is an invaluable resource for anyone interested in the history of our planet.

Computerworld, 1989-11-20 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site, Computerworld.com, twice monthly publication, focused conference series, and custom research form the hub of the world's largest global IT media network.
