**Dreaming in the Classroom** Philip King, Kelly Bulkeley, Bernard Welt, 2011-05-01 Dreaming in the Classroom provides teachers from virtually all fields with a uniquely informative guidebook for introducing their students to the universal human phenomenon of dreaming. Although dreaming may not be held in high esteem in mainstream Western society, students at all education levels consistently enjoy learning about dreams and rank classes on dreaming among their favorite most significant educational experiences. Covering a wide variety of academic disciplines such as psychology, anthropology, humanities, film studies, philosophy, religious studies, the book explains in clear and practical language the most effective methods for teaching accurate, useful information about dreams to students in colleges and university graduate programs, psychotherapy institutes, seminaries, primary and secondary schools, and non-academic settings. Included are detailed discussions of how to create an appropriate syllabus, integrate material from multiple disciplines, nurture skills in writing and critical reasoning, propose courses to skeptical administrators, and facilitate a responsible process for sharing dreams in a classroom setting. The book draws on interviews with dozens of accomplished teachers along with the authors' many years of pedagogical practice to present proven strategies for using this perennially fascinating topic to promote successful student learning.
