

The background of the entire image is a vibrant, multi-colored powder explosion against a black background, resembling a rainbow or a starburst.

siliconezone®

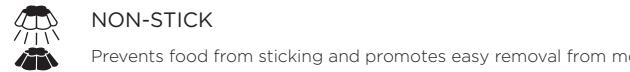

Life is art

Back in 1999, when kitchens were still in the age of the “clatter, crash, and clack” of metal utensils, SiliconeZone introduced the first avant-garde silicone kitchenware into the market. Highlighting its flexible qualities, non-stick properties, and ease in cleaning, the response from around the world was phenomenal. For two decades, SiliconeZone ingenuity has, quite literally, created a new kitchenware category.

Today, SiliconeZone continues to work towards great design and innovation with new products specifically designed to meet today's active and health conscious consumer. With increased consumer awareness of the properties of silicone as a safe material for use in food preparation and storage, SiliconeZone has developed numerous award-winning, ergonomic and functional products in Silicone Molds, and Kitchen Tools & Gadgets.

SiliconeZone has been recognized in numerous international design competitions, including Good Design (USA), Red Dot Design (Germany) and iF Product Design (Germany). Collectively SiliconeZone has won over 30 awards, and has received numerous accolades from the media. The SiliconeZone maxim, “Life is Art” defines the motivation behind each product created.

ICON GUIDE

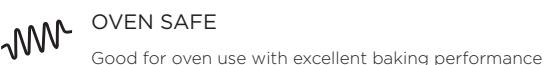

NON-STICK

Prevents food from sticking and promotes easy removal from mold

FREEZER SAFE

Doesn't change shape or colour up to -50°C (-58°F)

OVEN SAFE

Good for oven use with excellent baking performance

MICROWAVE SAFE

Good for cooking, reheating and defrosting with a microwave

TEMPERATURE RANGE

Withstands temperatures from -50°C to 250°C, and achieves an even heat spread

NON-SLIP

Helps to effectively grip or hold the item in place during use

BPA FREE

Free of bisphenol A – a compound that is harmful to health
